About Me

- Computer Science student with a strong interest in building efficient, scalable, and real-world software solutions.
- Interested in Web Development, Software Engineering, and building scalable applications.
- Beginner programmer with a strong willingness to learn, improve coding skills, and build practical projects.

Education

Sikkim Manipal Institute of Technology

2025 – Present

Bachelor of Technology in Computer Science Engineering

Majhitar, East Sikkim

- Currently pursuing undergraduate studies with emphasis on technical and analytical subjects.
- Working on hands-on projects to strengthen core concepts and practical engineering skills.
- Actively building project portfolio and technical skillset.

Guru Teg Bahadur Academy

2023 – 2025

Higher Secondary

Borguri, Tinsukia

- Specialized in Science stream with focus on Physics, Chemistry, Mathematics and Computer Science.
- Participated in board examinations and competitive exam preparation.

A - New High School

2010 – 2023

Secondary

Bordoloi Nagar, Tinsukia

- Completed foundational academic curriculum with strong performance in Mathematics and Science.
- Actively participated in academic competitions and extracurricular activities.

Projects

WeatherApp | *HTML, CSS, JavaScript*

- Developed a responsive weather application that fetches real-time forecasts via a third-party REST API using asynchronous JavaScript, featuring dynamic DOM manipulation and adaptive CSS layouts for seamless cross-device compatibility.

ShopEase | *ReactJS, TailwindCSS, JavaScript*

- Built a dynamic e-commerce interface utilizing React state management for a real-time interactive shopping cart, styled with Tailwind CSS for high-performance responsive layout design and streamlined component rendering.

Age Calculator | *HTML, CSS, JavaScript*

- Engineered a lightweight utility tool with JavaScript validation logic to compute exact ages down to the year, month, and day, handling leap years and edge cases within a clean, instantly reactive user interface.

Technologies

Languages : C/C++, Python

Frameworks : React, TailwindCSS, Bootstrap

Databases : MySQL/Postgres Supabase

Tools : Git, GitHub
